FIRST CLASS. FIRE PROTECTION

Formal Test of the Branch Line from the Wheeling Reservoir at the Town of Pork Yesterday was a Complete Success-The Banquet at Wheeling Park last Evening-A Most Enjoyable Occasion.

Last fall when Wheeling's authorities and public spirited men were considering means to alleviate the sufferings of the vast number of unemployed working men it was suggested that the water mains of the city's system be extended to Fulion, the thriving suburb over the hill. Difficulties were encountered at the time and the project was allowed to drop temporarily. The Fulton people, however, had taken kindly to the scheme, and with Albert Schenk, one of their most enterprising business men at the head, the town council was persuaded to apply to the Wheeling water board for the extension of the

water board for the extension of the water mains, and orection of fire-pluga in the village. This matter came before the board hast soring and it was found that affairs financially wore in condition to warrant the expenditure necessary. Work has been pushed vigorously and to-day the little village has a good water facilities and fire protection as her big neighbor.

Yesterday the public, test of the pressure on the eleven fire plugs took place and was witnessed by a large crowd unde up of representative citizens and officials of Fulton and a large number of gentlemen from Wheeling, including almost all of the city and county officials. A special motor train on the Wheeling & Elm Grove road took the guests out at 4 o'clock, accompanied by the Opera Heuse band. Arrived at Schenk's big peri: packing ostabilishment the special was switched and the test of the pressure through fire hose took place. After half an hour's work the most skeptical in the crowd was forced to admit that the village has now as good asystem of water supply and fire protection as any city in the work the most skeptical in the crowd was forced to admit that the village has now as good a system of water supply and fire protection as any city in the country. Two lines were first attached to the plugs on Main street, 25 inch hose from the Wheeling fire department being used. That the pressure was excellent was attested to by the fact that four men had all they could minange to control the nozzle when the water was sent through at full force, pressure about 90 pounds. The stream was sent over one hundred test into the air and as Entiton has no sky scraping structures the volunteer fire department of the town can with ease throw water on any of the buildings. The eleven plugs are well distributed and cover the entire area of the town. One of the tests was to put on a sec-

One of the tests was to put on a section of the old two-inch hose that has been in use in Fulton for six or seven years. When the water commenced to pour through at full force the fabric could not resist successfully and burst. The new hose ordered last week, however, will be here in a few days. As soon as possible the hand engine owned by the department will be disposed of, an engine not being needed now with the high pressure plugs.

After the tests on Main street a section of hose was attached to one of the

After the tests on Main street a sec-tion of hose was attached to one of the plugs in the lower part of the town, ad-joining the Schenk establishment, and the water was thrown with even greater force than from the plugs on Main street. Two streams were next forced from one plug, and both were all that could be desired.

After a visit to the big establishment of the Schenks the visitors again board.

After a visit to the big establishment of the Schenks the visitors again bearded the train and were speeded out to the beautiful resort, Wheoling Park, where the Fulton authorities had arranged a few hours' onjoyment for their guests. For an hour or two tenpins received the willing worship of its many devotoes, and at 7 o'clock those present formed in line behind the Opera House orchestra, Mayors Caldwell and Hatam leading, and marched to the Casino restaurant, where an elegant spread had been prepared. The attornoon's outing had sharpened appetites, and all "iell to" with the greatest of ease.

and all "fell to" with the greatest of ease.

Of course thore were speeches, Mayor Caldwell, of Wheeling, befing the first gentleman called upon. His Honor was in great form, and his many witty sallies ovoked rounds of incriment from the banquetters. One sentiment he expressed, the wish that Fulton might be added to Wheeling's bright constellation of eight wards, and come in as the Ninth, "The Bloody Ninth," was received with cries of approbation, both by the Fultonites and the Wheeling people, who are ever ready for an additional slice of the outer world.

Mayor Edward Hamm, in a few well chosen words, spoke of the great improvement in the Fulton water service, for which his town is indebted to Wheeling, and without whose aid the town could not have secured it, and referred pleasantly to the hope of a union of the treasurements.

forred pleasantly to the hope of a union of the two communities expressed by his brother mayor.

his brother mayor.

President Henry Jones, of the Wheeling water board, was the next gentleman called upon. He rejoiced with the Fulton gentlemen that their town had secured such a good water service, and spoke of the movement begun about a year ago, at first without seeming chance of success; but now a reality. In the of success; but now a reality. In the spring the board had found that it bad through its new reservoir a plentiful supply of water, exough to accommo-date the waiting Fulton people, and at

the same time give the people around the hill in East Wheeling a better service—a double object had been hieved. Fulton has a right to rejoic — a said, at setting such an excellen. **ater system at so small a cost.*

Mr. Albert Schenk was called for egthusiastically, and spoke briefly and to the point. All Fulton moople having the good of the community at heart had worked hard to get the new water system, and now that it has been secured everybody is happy and eatisfied.

Mr. Mike Stein, a member of the Fulton council, was the last speakor, and reitterated the sentiments that had already been expressed by his fellow statesmen. The water service had been worked up, and he would not rest satisfied until the town has an electric light service like that of Wheeling. After that he would consent to talk of anuexation to Wheeling.

After the banquet the visitors returned to the bowling alloys and other amusements, and passed soveral hours very agreeably. The day was a great success.

THE NEW BOTTOM HOLDS.

The City's New Reservoirs Will Reep Water in at Last.

If the last action of the city water board in regard to the new reservoirs on the top of Wheeling hill had been the first the city would have been better off and the basins have been rendering good service long ago. It has been

ler of and the basis have been renderly good service long ago. It has been demonstrated that there is but one way to keep water in the big beles, and that is the method recently adopted.

With the old concrete floor there were leaks where a barrel of water could be poured into a little crack and disappear from sight. All the water put, in the place found its way through the hill below to the creek.

Recently the water board let a contract to George L. Peabody, of Pittsburgh, represented in Wheeling by D. J. MacMillin and E. W. Dunnway, to put on the bottom of the two basins a substantial coating of rock asphalt. One basin was finished some time ago, and the south one will be done in a day over two. The wet weather has delayed work since Tuesday. In the north basin six feet and a half of water has been kept since the asphalt floor was finished, and there has been absolutely no leakage. Holes where lively little streams ran out at the base of the hill before are now perfectly dry.

The asphalt used is the Neuchatelnstbefore are now perfectly dry.

The asphalt used is the Neuchatelas-

phalt, the finest known to commerce. It phalt, the finest known to commerce. It is 'mixed with bitumen and white grit sand, and floated on the old concrete bed in a melten state, where it soon hardens, making a beautiful, hard surface as impervious to wafer as glass would be. Should the hill sink beneath the new floor, it is sufficiently flexible to yield without breaking, and still hold the water in.

The ease with which the new bottom can be cleaned is another advantage in

The case with which the now bottom can be cleaned is another advantage in its favor. This flooring is what the basins have needed ever since they were built. The masonry work is as line as it could be, and the bottom is also now complete and reliable.

The same firm has laid a number of fine artificial pavenents about town. They are handsome, and are warranted to outlast stone.

An Extensive System

to outlast stone.

An Extensive System.

Superintendent Varney, of the city water works is authority for the statement that there are now 338 water plugs supplied from the city's pires, which now measure thirty-eight and three-tenths miles in length. Last Saturday more water passed through the mains than over before this year, 8,750,00 gallelons. The average daily consumption is 7,000,000 gallens.

WHEELING THE HEADQUARTERS The Atlantic Refinery the Centre for West Virginia Oit Business,

The wholesale trade of Parkersburg was visited yesterday by A. F. Gerstell, of the Standard,Oil Company, of Wheeling, who notified the trade that hereafter the supplying of oil would be through his office at Wheeling, says the through his office at Wheeling, says the Parkersburg State Journal. Hitherto the works of the Standard company at this point have supplied the Parkersburg trade, and settlements were made with them hore. Hereafter the Parkersburg refluery will do simply a manufacturing business, the product being handled by the various Standard oil agencies to which it ships.

The Wheeling branch will establish a warchouse here in the old foundry warchouse here in the old foundry

The Wheeling branch will establish a warehouse here in the old foundry building at the corner of First and Juliana streets, and will supply the local trade and fill orders from that point. Settlements for the oil purchased will be made with the Wheeling office, and our local wholesale men do not take very kindly to the idea. They say it changes a trade relation of nearly thirty years' standing and that several conveniences which they hitherto enjayed will be absout. They also think that it sends their money away from here more directly than under the former plan.

here more threen, mer plan, in the standard refinery here will be a refinery and not a direct dealer with the trade in oil, a direct dealer with the trade in oil. It will make just as much oil as formerly and employ as many hands in the works. In the office, of course, less clerical force will be needed and two will be transferred on July first and possibly one or two more on August first. With that exception we will have the refinery as of old with its force of employes.

employes.

THE DATE IS SEE.

The A. O. U. W. Pienie Will Take Place at Mozart Park, July 24.

Last night the general committee, representing all of the A. O. U. W. lodges in the city held a well attended meeting for the purpose of making arrangments for the proposed union picnic of the order, first proposed in Reliance lodge recently and eagerly taken, up by the others. Two places for the picnic were considered. Wheeling Park and Mozart Park, and the latter was solected, and the date was after some discussion named; it is July 24, Tuesday. Mr. John C. Devine was chosen chief marshal, and will make all the arrangements for the moster waste anxiety. marshal and will make all the arrangements for the monster parade which will procede the festivities at the park. It is confidently expected that hundreds of visiting Workmen from all over the tri-state radius will be on hand. For the visitors special rates will be secured on all railroads. Committees were appointed as follows:

Reception committee—W. O. McCluskey, F. H. Lange, Henry Schmulbach.

Music committee—C. F. Braddfass, Charles Steinhauser and James Lancaster.

NOW CARE FOR THE AGED!

Summer With its Debilitating Weather is Here.

The Best of Thought and Care is Due to the Old People-For Them to Be Strong and Happy, Refreshing Sleep is Necessary-Paine's Celery Compound Must now be Taken,

Young people in the flush of health are apt to forgot that the aged need help more frequently than they, to ward off weakness and to check disease.

Because there are no symptoms of any specific disease they think nothing any specific disease they think nothing can be done. They forget that the weaknesses of old ago are general weaknesses, a difficulty of the slow organs of digestion and assimilation to property feed the nerves and body.

The one great need, as hot, debilitating weather comes on, is for new, rich blood, free from the poisoneus humors that invariably result from a stagmant condition.

tewis c. CROSSEN.

The certainty with which l'aine celery compound quickly sends new blood to every part of the body is shown by a strouger pulse, fuller heart beats, and a brightening of the spirits. Sleep becomes sound and refreshing, and rheumatism, sciatica, neuralgia, and other results of an underfed nervous system disappear.

matism, sciatica, heuraigm, and other results of an underfed nervous system disappear.

The world of worn out, nervous, feeble men and women is indebted to Prof. Edward E. Pheips, M. D., L.L. D., of Dartmouth medical school, for the discovery of this great nerve regulator and blood purifier—the heat and final fruit of a long life devoted to the study of weakness of nerve tissues, and its natural remedy.

Paine's celery commound gently stirs the workings of all the vital organs, feeds the nerves when waste in their tissues has exceeded the repair, and thus relieves nervous prostration, dyspepsia and disorders of the liver, kidneys and heart.

It builds up wasted bedies, frees weak

It builds up wasted bodies, frees weak It builds up wasted bedies, frees weak nerves and nerve centers of irritability by supplying rich, abundant blood to build up the worn-out tissues. When there is general debility, lassitude, a loss of appoitte and a lack of interest in life that comes at this season; when one looks wretched, and feels so all over, this great and one remarks are straight.

one looks wretched, and feels so all over, this great modern remedy goes straight to the source of the weakness and immediately gives strength and a vigor of mind and body such as must follow perfect nutrition of every organ and part of the body.

The lives of thousands of men and women past middle age who think it time to stop work, might be prolonged to many years of usefulness if they would ouly use Paine's celery compound, the great modern blood and nerve restorative. It will give new life, ambition and cheerfuness, as it did to Lewis C. Gressen, of North Cohocton, N.Y., who writes: "Paine's Celery Compound has done me a great deal of good. I have been affiliered with insomnia, nervous chills, loss of strougth, and poor digertion for some time, also loss of memory, and all of these troubles are much better and all of these troubles are much bette now. I have gained in weight since I commenced its use and am much better and stronger in every way. I shall recommend the Compound to all others."

*Onto Valley Grocers' day at Mozart, the most pleasant and only hilltop re-sort in West Virginia.

Do not ruin the comfort of your home by attempting to bake during the hot summer months. The Wheeling Bakery has made encormous reductions in the price of bread by greatly increasing the size of the loaves. You can buy this excellent bread from your nearest grocer almost at the cost of flour. Their latest product is "Big Bonanza" bread. These are the largest loaves ever offered in this city for 10 cents. Ask for this variety and you will find it just what you want. A tin seal on every loaf.

via Pennsylvania Lines.

BARGAIN BULLETIN-E. B. POTTS.

MAIN AND TENTH STS., Wheeling, W.Va.

60 We have just purchased at Assignee's sale the entire stock of the ROCHESTER CLOTHING CO., and place the same on the market for a few days at prices that will move the goods. Bargain hunters will do well to call early. The following extract from their opening announcement speaks for itself, and we propose to close the balance of the stock at still lower prices.

\$123,000 Worth of Fine Clothing Saved from the Big Fire at Rochester, N. Y.

The largest fire that has visited Rochester, N. Y., in years occurred in the wholesale clothing district on St. Paul street. Hundreds of thousands of dollars worth of Clothing were destroyed. But \$123,000 worth of Fine Clothing was saved; and to settle the insurance, the entire stock has been removed to Wheeling, W. Va., and will be sold for half price or 50 cents on the dollar.

AMONG THE GOODS ARE Men's \$4 50 Suits go at this sale at \$ 2 95 Men's 5 00 and \$5 50 Suits at 3 87 Men's 6 00, \$6 50 and \$7 00 Suits at 4 50 Men's 8 00 and \$8 50 Suits at 5 75 Men's 9 00 and \$10 00 Suits at 6 90 Mon's 9 00 and \$10 00 Suits at 7 95 Mon's 100 and \$11 50 Suits at 7 95 Mon's 200 and \$14 00 Suits at 6 80

If you can match these goods for less than double our price anywhere, you will much oblige us by returning the same and we will cheerfully retund your money. This is as plain and fair as we can make it, and we mean exactly what we say.
